

Sevey, Donahue & Talcott, L.L.P. – How We Can Help You

Without an attorney to guide you, you may make many mistakes from the beginning. The insurance carriers for the Defendant will stop at nothing to try and settle your case as quickly as possible and as cheap as possible. They are never on your side. They are not paid by you.

If you trust the insurance claim agent who contacts you, they'll lead you down the path to unfair compensation. Most people are not aware of all the hurdles in their way when they are injured. Some don't realize that if you settle your case you may be responsible for paying back your private health insurance for bills they've paid. You may settle your case thinking it's all yours, then without notice, your health insurance calls you and wants all or most of your settlement. Did the Defendants insurance claims adjustor inform you this would happen? No, they never do. Why? They're not on your side. They're never on your side.

When we get involved we protect you. We'll work with the Defendants insurance claims agent, but only so far as you are protected.

What can we do for you?

When we take a case, we sit down with the client in our office. We obtain all the necessary information. We use our private investigator to obtain photographs, accident reports, witness statements, and DMV records of the Defendant or Defendant Company. We work to make sure our clients property damage is taken care of, this we do for free. We

contact the Defendants Insurance carrier and put a stop to their communications with our clients. We evaluate what experts we will need, and we formulate a plan. If necessary we retain medical experts to assure proper medical attention.

Our original meeting with clients is free. We work on a contingency fee arrangement once the case is retained. We pay all cost for experts ourselves. When the case is resolved we receive our fee, cost, and reimburse all liens. The remainder is paid to our clients. As a bonus all recoveries made to the client are tax free. Call us or E-mail us with any questions. We're willing to discuss your case for free over the phone or in our office. If you like, we'll E-mail you with answers to some of your questions. As a policy we never recover fees over what our clients would receive. That's a promise.
